Biology learning journey

To further education/ training

GCSE

B5.4 Evolution

B5.3 Controlling nature

B5.2 Controlling reproduction

B5.1 Feedback and control

11

B4.1 The digestive system

B4.2 Circulation and respiration

B4.3 Plants and materials cycling

B4.4 Health and disease

B4.5 Ecology

10

B3.3 Genetics

B3.2 Human interaction

B3.1 Growth and differentiation

9

B2.1 Tissues and organs

B2.2 Respiration and photosynthesis

B2.3 Life diversity

B2.4 Nutrition

8

B1.3 Interdependence

B1.2 Reproduction

B1.1 Cells

7

From KS2

Big ideas:

Story starts

Story ends

Minor part of the story

cells are alive

structure determines properties

bodies are systems

organisms are interdependent

ecosystems cycle resources

characteristics are inherited

species show variation
