Dear Parents/Carers

Geography GCSE Exam Revision Guides

The geography department is offering all GCSE students the option to purchase additional revision materials which students should find of great benefit in helping to boost their GSCE examination grades. The two revision books on offer are written specifically for the new OCR B Geography syllabus Geography for Enquiring Minds (9-1) specification.

The revision guide book (GRR44) has all the key geographical concepts for independent learning and revision. This book is priced at £3.50.

Examination practice work book (GRQ41), supports a range of questions on all units for students to practice independently as part of their exam preparation and revision. This book is priced at £3.25.

If you would like to purchase one or both of these revision books then you may do so by completing the form below, ticking next to the resources you would like to purchase and by providing the name of the student and their tutor group. This form should then be handed in to your son's/daughter's geography class teacher only. Once this is received this will then be set up on your ParentPay account.

Yours faithfully

Miss K Wilcox
Head of Geography
