

8 November 2018

Dear Parents/Carers

Change of V-Cert Product Design to WJEC Constructing the Built Environment Level 1/2 Award

The art, design and technology faculty has made the decision to move from the NCFE V-Cert product design course to WJEC constructing the built environment level 1/2 award. This decision has been made because the NCFE no longer offer the V-Cert qualification in craft (product design). NCFE had developed a replacement course that we were planning to run but this has not been approved as of October 2018.

We believe that the replacement course, WJEC constructing the built environment level 1/2 award, meets the needs of our learners and is equivalent to other KS4 options such as GCSEs.

Further information can be found on this website -
