

Year 7 Literacy & Numeracy 'Catch up' Impact Report (2017-18)

Notley High School & Braintree Sixth Form was allocated **£17,345** in funding, in the 2017-2018 academic year, to support the **55** students who met the criteria in either reading and/or maths.

What effect did the expenditure have on the attainment and progress of students for whom it was allocated?

- 66% of students improved their performance significantly in numeracy and are making good progress at KS3.
- 77% of students improved their performance significantly in numeracy and are making good progress at KS3.
- Those students who were unable to attain expected standard in literacy will be given further support and interventions in Year 8 within class time.

We determine that a student has 'caught up' by monitoring the progress made through comparing the outcomes in assessment in relation to starting points. We monitor how the 'catch-up cohort' perform compared with the rest of the cohort.

Literacy Catch-up Intervention

37 students have been identified as not achieving the expected standard in reading at KS2. Student needs have been further identified by completing baseline assessments in reading and spelling.

| Intervention | Cost |
|---|--------|
| Further diagnostic testing (staff time, photocopying, resources) | £550 |
| Use of Learning Mentors within lessons to support students in accelerating learning | £6,398 |
| Accelerated Reading Programme | £500 |
| Use of SOUND training materials aimed at moving students forward. | £2,500 |
| DEAR time in both tutor time and lesson time | £0 |

Numeracy Catch-up Intervention

32 students have been identified as not achieving the expected standard in maths at KS2. Student needs have been further identified by completing baseline assessments in maths.

| Intervention | Cost |
|--|--------|
| Further diagnostic testing (staff time, photocopying, resources) | £550 |
| Numeracy Ninja resources & photocopying | £300 |
| Targeted interventions using Learning Mentors within lessons | £6,397 |
| Purchase of mastery maths materials to supplement existing materials and accelerate progress | £150 |
